

Creating an iChat Account

1. On the desktop, click on the iChat icon  in the applications tray.

2. At the 'welcome' screen, click .
3. Fill in the personal information with your first and last names.

Under 'account type' change the account type to 'AIM Account.'

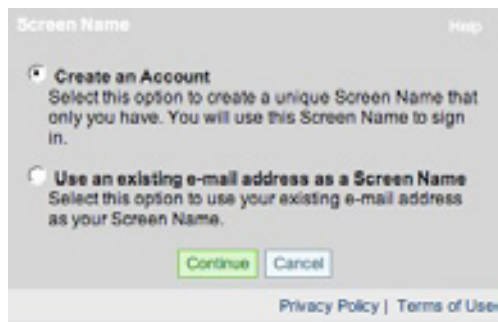

3. Go to http://www.aim.com/get_aim/win/latest_win.adp

4. Click on the blue '  link.

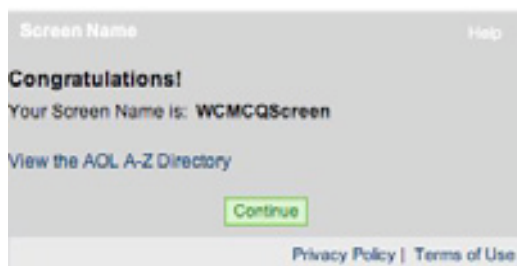

5. Keep 'Create an Account', and select .

6. Fill in the information form with the requested information, and select .

Remember your password, as you will need it for the iChat registration!!

7. On the next screen, you will see a confirmation showing that your account has been created.

Leave this screen open, and return to the iChat registration.

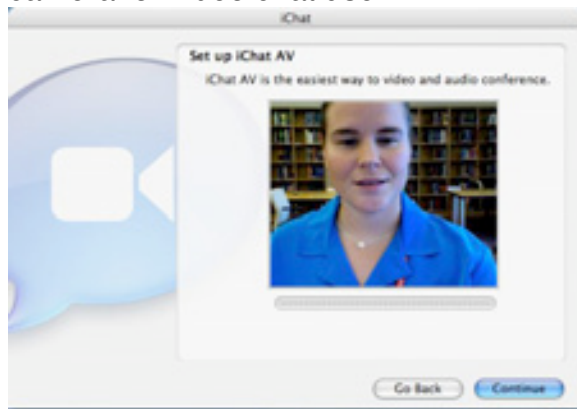

8. In the iChat registration form, fill in your new AOL screen name and password, and select .

9. Jabber and Bonjour are optional services. You can sign up for Jabber and Bonjour using your AOL screen name and password if you want to use them. **You do not need to sign up for Jabber or Bonjour to use iChat.**

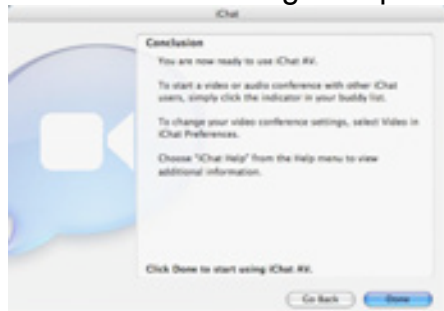

Either input your user name and password first, or just select .

10. If you are using a computer with a video camera, iChat will calibrate the camera for video chat use.

Select .

11. You are now signed up for iChat! You may click on  to proceed.

To learn more about other iChat features, click on the 'how to' tutorials on the Delib's iChat FAQ page.
