## STUDENT STATISTICS

### Medical Students
- Class of 2024 (4th Year Medical) 56
- Class of 2025 (3rd Year Medical) 54
- Class of 2026 (2nd Year Medical) 50
- Class of 2027 (1st Year Medical) 47

### Number of Students
- Medical Curriculum 207
- Pre-medical Curriculum 117
- Foundation Program 21
- Total Number of Students 345

### Students Entering the Medical Curriculum (Class of 2026)
- Men 21
- Women 26

### Entering Pre-medical Students
- Men 26
- Women 30

### SAT 1 Math Score*
- 780

### TOEFL Internet Based Test*
- 111

* Scores are for students admitted directly onto the Six-Year Medical Program.

## FACULTY STATISTICS

### Academic Staff
- Faculty 83
- Other faculty (employed at affiliated and other institutions) 657

## RESEARCH

### Total employees**
- 122

### Number of active research laboratories
- 18

### Non-faculty academic (postdocs and research associates)
- 20

### Papers published since 2010
- > 1,840

### Nine core facilities:
- Genomics, Proteomics, Bioinformatics & Metabolomics, Imaging, Vivarium, Biostatistics, Clinical Research Support, Basic Core and MicroRNA.

* Including non-faculty academic.

** Including non-faculty academic.
WCM-Q AT A GLANCE

WCM-Q pioneered university-level coeducation in the country and, with the establishment of the college in Qatar, Cornell became the first US university to offer its MD degree overseas.

Medical school enrollment has increased from 16 in the inaugural class to 47 in the Class of 2027.

The WCM-Q student body is diverse, with students from more than 30 countries.

The facilities, provided by Qatar Foundation, include state-of-the-art lecture halls with distance learning and audiovisual technology, extensive teaching laboratories, and seminar rooms designed for small group work.

The medical college has the region’s first clinical skills center. With 12 fully equipped exam rooms, audio-visual equipment, computerized medical mannequins, and a standardized patient educator program, it is a state-of-the-art resource for the specialized training of physicians.

Alongside teaching, WCM-Q faculty host clinics and surgeries in Qatar’s medical institutions, delivering world-class care to the community.

Through the work of the Division of Continuing Professional Development and its adherence to international best practice and the concept of life-long learning, WCM-Q became one of the first institutions outside of the US to be accredited by the Accreditation Council for Continuing Medical Education as a provider of continuing medical education for physicians.

The Health Sciences Library at WCM-Q provides a vast array of information resources, including 119,698 eJournals, 142,318 eBooks, 2,456 printed books and 431 databases, in addition to other electronic media that are continually updated and expanded.

OUR MISSION

Weill Cornell Medicine-Qatar (WCM-Q), a pioneering joint venture between Qatar Foundation and Cornell University, is a research-intensive, academic medical institution. We leverage our unique programs, progressive partnerships, and strategic location to:

• develop outstanding physicians, scientists, and future healthcare leaders,

• generate significant discoveries that transform healthcare, and

• promote population health through deeply rooted community engagement.

A TRIPLE MISSION OF EXCELLENCE

WCM-Q has a tripartite commitment: a dedication to excellence in education, clinical care and research at the frontiers of biomedical science.
OUR MISSION
Weill Cornell Medicine-Qatar (WCM-Q), a pioneering joint venture between Qatar Foundation and Cornell University, is a research-intensive, academic medical institution. We leverage our unique programs, progressive partnerships, and strategic location to:
• develop outstanding physicians, scientists, and future healthcare leaders,
• generate significant discoveries that transform healthcare, and
• promote population health through deeply rooted community engagement.

A TRIPLE MISSION OF EXCELLENCE
WCM-Q has a tripartite commitment: a dedication to excellence in education, clinical care and research at the frontiers of biomedical science.

OUR VISION
An internationally recognized institution advancing and transforming the health and wellness of populations in Qatar and the region, Weill Cornell Medicine-Qatar aspires to become an iconic organization with global impact.

EDUCATION
WCM-Q’s innovative Six-Year Medical Program of study leads to the Cornell University MD degree. The two-year pre-medical curriculum focuses on basic sciences relevant to medicine. The four-year medical curriculum offers courses that integrate normal and abnormal biology, and provide early exposure to patients. This curriculum continues to follow the highly successful program of Weill Cornell Medical College in New York.

CLINICAL CARE
WCM-Q works with its partners to educate physicians who will become leaders in healthcare in Qatar and around the world. Through a strong partnership with Hamad Medical Corporation (HMC), the country’s main healthcare provider, students gain clinical experience with patients from their first year of medical school. Furthermore, the partnership with Aspetar Orthopedic and Sports Medicine Hospital provides students with experience and training in orthopedic and rehabilitation medicine. In addition, with Sidra Medicine, the Feto Maternal Centre, and the Primary Health Care Corporation, students have access to some of the most technologically advanced medical and research facilities in the world.

RESEARCH
In close collaboration with Qatar Foundation and local stakeholders in the biomedical sciences, including HMC, Sidra Medicine, and HBKU, WCM-Q researchers are focused on improving our understanding of diseases specific to Qatar and the region, including obesity, diabetes, metabolic syndrome, and neurogenetic abnormalities. Efforts are expanded on the continuum of biomedical research from basic, to translational, clinical and population research. The ultimate goal of the WCM-Q research effort is to inform more efficient healthcare in Qatar by advancing the fields of precision medicine, AI and machine learning. In addition, our research effort has enhanced the technical and physical biomedical research infrastructure and continues to significantly improve the scientific talent nationally through robust training and outreach programs.
**MILESTONES ON OUR JOURNEY**

**January 2001**
Cornell University and Qatar Foundation sign an agreement to establish Weill Cornell Medicine-Qatar.

**August 2002**
First students enter WCM-Q's Pre-medical Program.

**October 2004**
Affiliation agreement signed by Weill Cornell Medicine, NewYork-Presbyterian Hospital and Hamad Medical Corporation.

**August 2007**
WCM-Q Foundation Program is implemented.

**May 2008**
Inaugural medical class graduates.

**February 2009**
WCM-Q signs clinical training and education agreement with Aspetar Orthopedic and Sports Medicine Hospital.

**June 2009**
A five-year plan is implemented to establish a biomedical research program. Over the next year, various research cores are established and extramural funding from Qatar National Research Fund begins.

**October 2010**
Weill Cornell Medicine and Sidra Medicine sign an affiliation agreement with one another.

**August 2011**
WCM-Q partners with Hamad Medical Corporation and Qatar’s learning and research institutions and healthcare providers to launch the MENA region’s first Academic Health System.

**November 2012**
Facilitated by WCM-Q, institutional accreditation is given to Hamad Medical Corporation by the Accreditation Council for Graduate Medical Education - International.

**May 2013**
An MoU with the American Board of Medical Specialties is signed to launch a certification program for various disciplines.

**October 2013**
WCM-Q signs an affiliation agreement with the Primary Health Care Corporation (PHCC).

**October 2014**
WCM-Q is accredited as a provider of continuing medical education and continuing professional development by the Department of Healthcare Professions of the Ministry of Public Health.

**November 2014**
WCM-Q restructures its curriculum into one cohesive Six-Year Medical Program.

**May 2015**
An MoU is signed with the US-based Alliance for Academic Internal Medicine.

**July 2015**
WCM-Q signs a clinical training and education agreement with the Feto Maternal Centre.

**September 2015**
WCM-Q’s application to place students in long-term clinical clerkships in New York pursuant to section 60.2 of the Commissioner’s regulations was approved by the New York State Board of Regents for a period of seven years.

**October 2015**
Agreement signed with the Educational Commission for Foreign Medical Graduates for global medical education and collaboration for student research funding.

**November 2016**
WCM-Q is recognized as an accredited provider by the Accreditation Council for Continuing Medical Education and has the rights to designate AMA PRA Category 1 Credit™.

**September 2017**
- WCM-Q is recognized by the UK’s General Medical Council for overseas medical schools.
  From the Class of 2018, WCM-Q graduates awarded an MD degree can apply for residency and training programs in the UK and sit the Professional and Linguistic Assessment Board (PLAB) test for GMC registration.
- WCM-Q officially reopens its expanded and enhanced Clinical Skills & Simulation Lab.

**November 2018**
WCM-Q is awarded accreditation with commendation, the highest ACCME standard for continuing professional development.

**July 2020**
WCM-Q’s Infectious Disease Epidemiology Group is designated a WHO collaborating center.

**August 2022**
Following a comprehensive assessment process, the medical program at WCM-Q is granted full accreditation by The Association for Evaluation and Accreditation of Medical Education for a period of six years.
