Institute for Population Health

Health and YOU

Community Wellness Series

Plastics and Human Health

Plastic exists everywhere. The session will review the effects of plastic on human health and well-being and outline solutions to reduce toxic exposure to plastic.

Live Webinar

April 10, 2023

1:00 – 2:00 PM (Qatar time)

Speaker

Dr. Amit Abraham

*Assistant Professor of Clinical
Population Health Sciences
Population Health Research Specialist
Weill Cornell Medicine-Qatar*

Dr. Abraham is an Assistant Professor of Clinical Population Health Sciences/Population Health Research Specialist working in the Institute for Population Health (IPH) at Weill Cornell Medicine-Qatar. He is responsible for managing public health research and community programs, particularly those promoting health awareness and disease prevention in the State of Qatar. He is an active participant in the IPH's public health teaching programs for pre-medical and medical students. His primary research interests pertain to environmental health and its impact on the local community. These comprise, but are not limited to, air quality, particulate matter and respiratory disease, pesticide use, climate change, and sustainable urban and community development, with a focus on the interplay between these issues. His other interests include lifestyle medicine, risk communication and public health.

Dr. Abraham is an alumnus of Weill Cornell Medicine-Qatar, having obtained his MD in 2011. He completed his Master's in Public Health (MPH) from the Johns Hopkins Bloomberg School of Public Health, Baltimore, USA in December 2018. He is an inductee of the Alpha Chapter of Delta Omega Public Health Honorary Society.
